

## Rules for the Annual Club Show

### 1. Categories and Classes

- i. The Annual Club Show comprises two Categories: Projected Digital Images (PDIs) and Prints.
- ii. Within each Category, there will be five Classes: Open (that is any subject matter), Creative, Monochrome, Nature and Worcestershire.
- iii. A Monochrome Image is defined as a black and white image with tones from very dark grey (black) to very clear grey (white), or a black and white image toned entirely with a single colour.
- iv. Nature photography is restricted to the use of the photographic process to depict all branches of natural history, except anthropology and archaeology, in such a fashion that a well-informed person will be able to identify the subject material and certify its honest presentation.
- v. The story telling value of a Nature photograph must be weighed more than the pictorial quality while maintaining high technical quality.
- vi. Scientific bands, scientific tags or radio collars on wild animals are permissible. Photographs of human created hybrid plants, cultivated plants, feral animals, domestic animals, or mounted specimens are ineligible, as is any form of manipulation that alters the truth of the photographic statement.
- vii. Processing of the captured image, by cropping, exposure adjustment, colour correction, noise minimisation, dodging/burning, HDR, focus stacking and sharpening, is allowed. Cloning of image defects and minor distractions, including overlapping elements, are permitted when these do not distort the truth of the photographic statement.
- viii. Images entered as Nature can have landscape, geologic formations, weather phenomena and extant organisms as the primary subject matter. This includes images taken with the subjects in controlled conditions, such as zoos, game farms, botanical gardens, aquariums and any enclosure where the subjects are totally dependent on man for food.
